BIOGRAFIA

TIAGO PROENÇA DOS SANTOS

Tiago Proença dos Santos, MD, is a pediatrician and pediatric neurologist at the Pediatric Department of Hospital de Santa Maria in Lisbon, Portugal, where he works as a Medical Assistant in Neuropediatrics since 2013. He completed his medical degree at the Faculty of Medicine of the University of Lisbon and subsequently trained in General Pediatrics and Neuropediatrics, including a part of the residency at Hospital Sant Joan de Déu Barcelona. He also completed two years of residency training in Psychiatry, which contributes to a broader, multidisciplinary approach to child and adolescent neurodevelopment and mental health.

Dr. Proença dos Santos combines clinical work with regulatory, academic, and research roles. He serves on the Medical Advisory Board of the European Medicines Agency (EMA) and as a medical advisor at Infarmed, the Portuguese Authority of Medicines and Health Products, and he is member of the consortium Conect4children contributing to the evaluation of pediatric medicines and clinical trials. He is also an Assistant in Biochemistry and Neuropediatrics at the Faculty of Medicine of the University of Lisbon since 2003.

His postgraduate training includes sleep science, clinical research, evidence-based medicine, clinical trials, pharmacoepidemiology, leadership in healthcare units, entrepreneurship, neurodevelopment in pediatrics and AI applied to Medical Science. He has authored peer-reviewed publications, book chapters, and numerous conference presentations, and has participated in several clinical trials, including as principal investigator.

Clinically, his work focuses mainly on movement disorders and higher cognitive functions, particularly child neurodevelopment and its disturbances.
